

HERE FOR GREATER MANCHESTER

SUPPORT FOR YOUNG PEOPLE

Young people in Greater Manchester need us more than ever and we're committed to providing the support they need to navigate this challenging time. We're piloting a series of innovative online courses and one-to-one support to ensure we can still be there for young people when they need us most.

We're proud to be working in partnership with the Greater Manchester Combined Authority to help young people in the region take the next step towards building sustainable futures. Through our ever-expanding network of businesses, schools and partners across Greater Manchester, we're working to reach young people in all ten boroughs.

Together, we can provide vital support to help young people keep their lives on track.

GET IN TOUCH
